General information

Project title / keyword:

Site of installation:

Client:

End-client:

Company:

Address:

.....

Contact person:

Phone:

Email:

Place / Date:

Signature:

- All information submitted will be treated confidentially. -

Feed to the plant:

Raw material (source):

- Soybean
- Sunflower
- Rape seed
- Others

Composition:

- wt.-% Phosphatides (Lecithin)
- wt.-% Oil
- wt.-% Water
- wt.-% Others

Flow rate:

- kg/h
- t/d

Temperature:

- °C

Concentrate (dried lecithin):

Water content (max.):

- wt.-%

Application:

- Food grade:
- Feed grade:

Utilities:

Heating

- Saturated steam
- Pressurised hot water
-

Pressure / Temperaturebarg / °C

Cooling water

- max.°C

Cold water

- max.°C

Chilled water

- max.°C

Scope of supply

Thin film evaporator

- horizontal (SAKO)
- vertical (LUWA)

- with engineering package
- with main process equipment
- complete plant (skid-mounted)
